ABOUT ME

Front-End Developer with experience building scalable, responsive web applications using React.js, Next.js, and TypeScript. Skilled in Redux Toolkit, RTK Query, API integration, and authentication with NextAuth, with hands-on experience working in Agile Scrum teams.

WORK EXPERIENCE

Be Group, Front-End Developer

Mar 2025 – present | Cairo, Egypt

Tech Stack: Next.js, React.js, TypeScript, Ant Design, RTK Query, NextAuth, Figma, Native.

Contributed to the development of **multiple web projects** for various clients, collaborating within cross-functional Agile teams.

Key Projects & Contributions:

- ❖ **Chemia, Be Group, Halal Center, Itqan, Be Tech, GasTech** – Built interactive, fully responsive, data-driven front-end components for internal applications, ensuring secure and efficient user experiences.
- ❖ Converted Over **20+ Figma** designs into **clean, reusable components**, **reducing development time by 50%** and improving UI consistency across projects.
- ❖ **Optimized components using RTK and server-side caching**, reducing re-renders and load times by **50%** to enhance application performance and user experience.
- ❖ Integrated and tested **25+ APIs** using **Postman**, and **Insomnia** ensuring smooth front-end and back-end communication.
- ❖ Collaborated in **Agile sprints** using **Jira & Click Up**, contributing to task planning, issue tracking, and continuous delivery.

Quantum Billing, LLC, Front-End Developer

Nov 2024 – Sep 2025 | Remote, U.S

Contributed to the development and enhancement of an enterprise **ERP system** by building and maintaining reusable frontend components using modern web technologies.

Development Tools & Technologies:

React.js, Redux, React Router, Material-UI (MUI), Swagger, Postman – Built scalable components, managed state, implemented seamless navigation, created responsive UIs, and integrated/tested APIs.

Key Responsibilities:

- ❖ Delivered modular and maintainable code for **15+ reusable components**, resulting in a **25%** reduction in code duplication across the enterprise **ERP** system.
- ❖ Worked in an Agile Scrum environment, participating in sprint planning and reviews.
- ❖ Focused on optimizing performance and maintaining high code quality standards

Highlighted Contributions:

- ❖ Enhanced over **150+** existing components for improved user experience and functionality.
- ❖ Streamlined API testing and integration workflows with Swagger and Postman.

Web Masters, *Front-End Developer (Intern)*

Aug 2024 – Oct 2024 | Cairo, Egypt

Completed multiple projects using **HTML5, CSS3, JavaScript, and Bootstrap** to build responsive layouts. Developed dynamic user interfaces with **React.js**, implementing **React Router** for navigation, protected routes with loaders, and **Redux Toolkit** for state management. Built consistent, modern UI components using **Material UI**.

Highlighted Projects:

- ❖ **E-commerce Platform:** Built an online store with product listings, shopping cart functionality, and user authentication. **(Live Demo)**
- ❖ **Weather App:** Developed an interactive weather app using APIs to display real-time data. **(Live Demo)**
